

AI-Powered Data Analysis Team1 Charter

Excelerate — AI-Powered Data Analysis Remote Internship

Team Members	Sindiwe Rana (sindiwerana2@gmail.com) Fariha Jamal (farihajamal4@gmail.com) Santanu Kumar Nirala (ksantanu2208@gmail.com) Mariam Emad (mariamemadlabib@gmail.com) Oladapo Abimbola (Team Lead) (abimbolaprimp2@gmail.com) SAIDEEPS (saideep842006@gmail.com) Desmond Aziege (daziege@gmail.com) Phenyle Yare (yarephenyle@gmail.com) Soumith Guggilla (cherryguggilla123@gmail.com) Tshepiso Rampete (montle.0221@gmail.com) Durga Amalapurapu (Bhavani) (bhavania7lakshmi@gmail.com) Comfort Oyedijo (oyedijocomfort@gmail.com) Kevin Kipyator Kapyemit (kipyatorkevin4@gmail.com) Cherish Ojigbani (cherishlight935@gmail.com)
Team Lead	Oladapo Abimbola — coordinates deadlines, phase handoffs, and represents the team to the sponsor.
Team Members Roles and Responsibilities	<i>Sponsor Company — Excelerate</i> Team Lead — Oladapo Abimbola. Represents team to sponsor via email/calls, sets deadlines, tracks phase handoffs, resolves blockers. Phase 1 — Data Set Overview & Data Dictionary: Comfort Oyedijo, Sindiwe Rana, Cherish Ojigbani Phase 2 — Data Quality Assessment: Kevin Kipyator, Bhavani (Durga Amalapurapu), Phenyle Yare Phase 3 — Historical Analysis & Opportunity Categorization: Desmond Aziege, Tshepiso Rampete Phase 4 — Visualizations & Report Compilation: Oladapo Abimbola <i>Remaining members</i> (Fariha Jamal, Santanu Kumar Nirala, Mariam Emad, SAI DEEPS, Soumith Guggilla) to confirm which phase they are joining.
Mission, Objectives & Values	Mission: 'To fulfil the needs of our sponsor through a tangible project plan and recommendations that they can execute.' Vision Objectives: Work in a collaborative, positive team dynamic as the anchor

	point of the strategic plan. Core Values: Integrity, Accountability, Discipline, Respect, Innovation
Internal Checks, Balances, and Reviews	Workflow is a sequential pipeline — each phase's completed output directly unblocks the next phase. Data Quality Assessment (Phase 2) must finish before Historical Analysis (Phase 3) begins, since exploratory work depends on clean data. A "co-pilot" model is used: each subsection includes at least one more experienced member paired with less-experienced members to protect quality and smooth handoffs. Team Lead reviews each phase's output at handoff before the next phase starts work.
Operations: Assignments	Assignments: Reviewing the syllabus, creating the Data Understanding Report (Week 1), drafting project deliverables, delivering the final project.
Operations: Meetings	Meetings: Kickoff meeting held July 15, 2026 (7 members in attendance). Further check-ins as needed at phase handoff points.
Operations: Communication Guidelines	Communication Guidelines: Team Lead represents team to sponsor; everyone is expected to participate, contribute, and maintain collaboration. Main channel is Google Chat group "RIT 1307 AI Data Team 1". All scheduling times are given in IST — members convert to their own timezone. Messages should be responded to within 24 hours; listen and respect each other's ideas, encourage conciseness.
Operations: Status Updates	Status Updates: Posted in the group chat as each phase completes and hands off to the next; Team Lead consolidates a summary at each milestone.
Operations: Deadlines	Deadlines (all times IST): Phase 1 — Data Overview & Dictionary: Thu July 16, 6:00 PM Phase 2 — Data Quality Assessment: Fri July 17, 6:00 PM Phase 3 — Historical Analysis & Opportunity: Sat July 18, 6:00 PM Phase 4 — Visualizations & Report: Mon July 20, 6:00 PM Final Review & Submission: Mon July 20, 4:00 PM

Note: remaining open items (final assignments for members not yet on a phase) to be completed as they confirm.
